Resident Spotlight: Jane Hirdler

Q. How long have you lived at Norgard?

A. 3 years

Q. What was the last gift you gave someone?

A. I recently donated some gifts for our new neighbors moving in to Norgard in April.

Q. What were you like in High School?

A. Kind of quiet. We lived in the country away from town so I wasn't able to hang out with all the kids in town.

Q. What was the weirdest thing you've seen in someone else's home?

A. When I was about 9/10 years old, I had a friend who had a fake hand hanging out the back of the toilet tank.

Q. What is the best and worse job you've ever had?

A. Best – Welfare Office, because I got to work with great people and did a lot of accounting type work that I really enjoyed.

Worst- A underqualified fry cook at a small restaurant off of Snelling Avenue. I only lasted at that job for a few weeks.

Q. What is the most memorable vacation you've ever been on?

A. A Cruise to the Eastern Caribbean with a group of friends from my congregation. I saw Iguanas some up to 4 feet long all over the place!

Q. Tell us about your first kiss

A. Well that was sooooo long ago! I was about 13 years old visiting my sister in Bay Lake near Deer Lake for the summer. There was a neighbor that had about 12 kids which included a boy about my age. We went for a walk one day and it just happened. BAM!

Resident Updates:

-Please continue to make your rent checks payable to:

Norgard Court Apartments.

-Please do not leave the garage door propped open unattended.

Dryer Tips.....

Why You Need to Clean the Lint Filter Every Time

You've heard that you need to clean the dryer lint trap after every load, but is it true? Let's discuss the reasons to clean the lint filter, how often you should perform this task, and more useful tips.

Why Do You Clean a Dryer Lint Filter?

When clothing tumbles around in the dryer, the agitation and high heat cause clothing, towels, and linens to shed some of their fibers. The lint screen catches many of these fibers to prevent obstructing the dryer vent hose. It's important to clean this screen for several reasons:

- **Keep your energy bills down:** If the screen is clogged with a thick layer of lint, the dryer must work harder to perform its task, pushing your energy bills up. Cleaning the dryer lint screen allows more air to flow out the exhaust vent for efficient operation.
- **Help your dryer last longer:** Any time you can take pressure off the machine, you decrease overall wear and tear. This reduces the need for emergency repairs and helps the appliance last longer.
- **Dry your clothes faster:** Proper airflow is necessary to dry your clothes in a single cycle. If you continually have to add time to each batch, check the filter. It might be clogged with lint.
- **Reduce the risk of fire:** Dryers generate high temperatures, and lint is highly flammable. Remove this fire starter from your laundry room to help keep your home and family safe from dryer fires.

How Often Do You Clean a Lint Filter?

The recommendations you've heard are correct – you should clean the lint filter between every batch of clothes. Get into the habit of removing lint from the screen, either before or after every batch. Many new dryers will automatically remind you to check the lint filter before starting up.

Birthday Bash

BIRTHDAYS THIS MONTH

Maryln (#206) has hired an accordion player to entertain us during our Birthday Bash. Held on:

Tuesday May 14th at 1pm

Happy MAY Birthday to:

Brennan- Office on the 1st

June- #201 on the 2nd

Amy- Office on the 7th

Clarence- #204 on the 17th

Sandy- #110 on the 19th

Jeanne- #211 on the 24th

Eileen- #108 on the 30th

Guy- #310 on the 31st

Mother's Day High Tea

Tea (of course), crumpets, scones, cucumber sandwiches, & assorted

cheeses. Monday May 13th at 12pm

BE SURE TO WEAR YOUR FANCY HATS
